

# APPENDIX SIX, SECTION TWO

## Facilities and Conditions in Learning Institutions in the Former Kwandebele

### SCHOOLING

**A. These pictures bear evidence that there are schools where facilities and conditions are not very supportive of teaching and learning processes.**

#### 1. TATTY BUILDINGS AND INFRASTRUCTURE

## OTHER IMPORTANT EDUCATIONAL PROJECTS AND NGOS

### 1. PROJECTS FOR THE DISABLED PEOPLE

Initially, the building below was a hair salon. The Vukuzenzele Protective Workshop and Stimulation Centre uses the building to accommodate 8 children and 12 adults with different disabilities. Learners are taught basic literacy and are also trained in various skills. Disabled adults at this centre are taught brick making and fence manufacturing. The project sells bricks and fence to supplement grants they get from the government.

- **Disabled adults manufacturing fence.**

The Busisiwe Day Care Centre at Kameelrivier A is also a project meant to help learners with various disabilities. Currently the center has 14 learners. Learners here are also taught basic literacy. The intention is also to train learners in various skills but this has not started because there are no sufficient funds to buy necessary equipment.

➤ **This building, was donated to the Busisiwe Day Care people by the National Nutrition Support Programme in 1986.**

## 2. MULTI-PURPOSE PROJECTS

The pictures below were taken at the Siyabuswa Education Improvement and Development Trust (SEIDET). This is an NGO that seeks to develop local people through education. They offer Saturday classes to grade 10 to 12 learners, afternoon classes for learners who have failed matric or who want to improve symbols, and ABET classes. They also do computer training.
